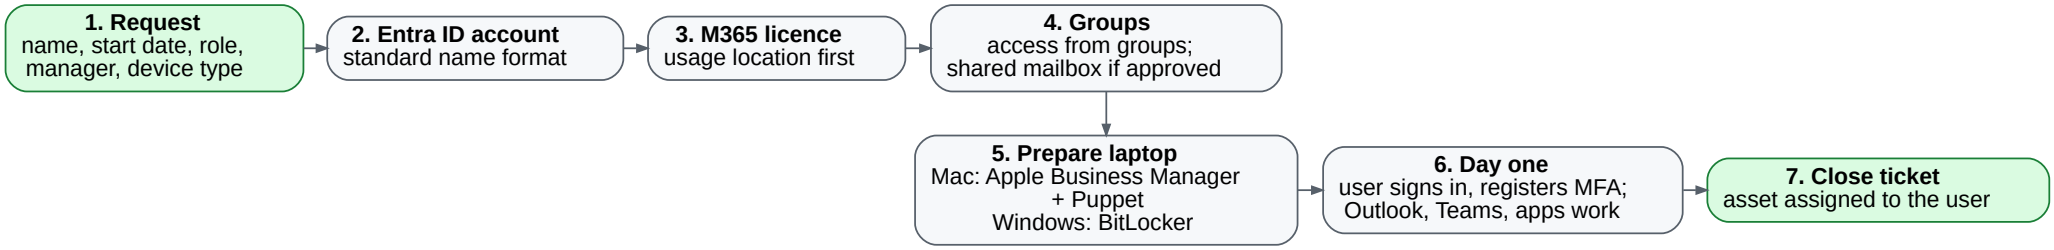
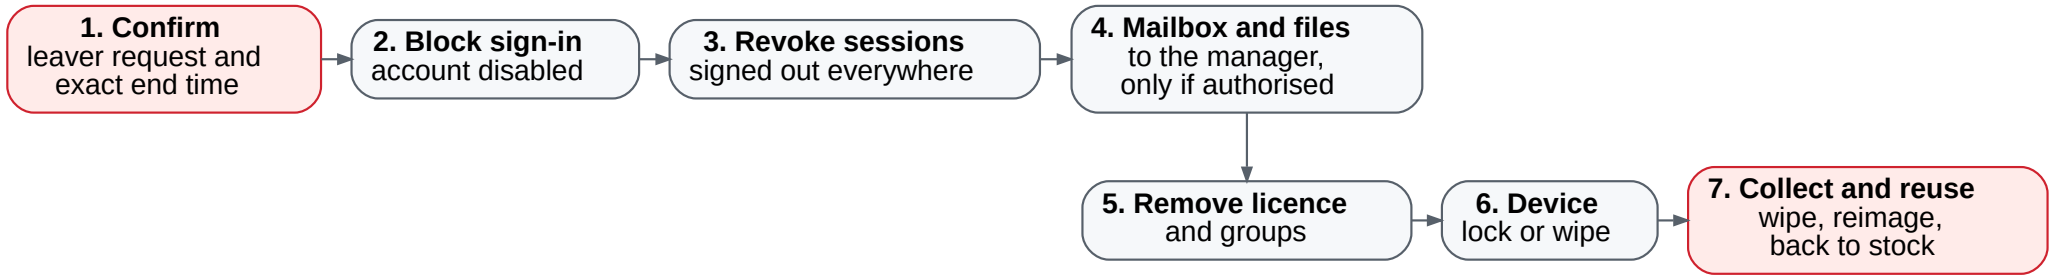
Identity & Endpoint Lifecycle: Entra ID, Microsoft 365, Mac & Windows

Marcus Paula · IT Operations Engineer, TikTok (Dublin, EMEA) · the joiner and leaver process I ran, step by step

JOINER: before day one



LEAVER: on the last day (remove access first, then tidy up)



SUPPORT AND CHECKS

Everyday support
Password and MFA resets after checking identity.
Outlook, Teams and Microsoft 365 issues.

Read-only check script
Get-UserAccessSnapshot.ps1 shows licences, groups, MFA and devices before and after a change.

Tool mapping (what I used → Intune / Jamf)
Apple Business Manager → ABM + Jamf / Mosyle
Puppet → Jamf policies · BitLocker → Intune, keys in Entra ID
Lock / wipe → Intune remote wipe / Jamf lock and erase

Runbook, troubleshooting guide and script: github.com/marcuspaula-seceng/it-infrastructure-operations-portfolio · Project 08. Employer work is described at capability level; no tenant names, user data or internal configuration.
